[Arwyn Edwards](#), [Sara Rassner](#)  
[David Pearce](#)

Where did we go?

- [Troll Research Station](#),
- [Dronning Maud Land](#)

What did we do in Dec. 2019 – Jan. 2020?

Measured light penetration trough ice

Collected several shallow ice cores of the Blue Ice  
 Mapped cryoconite holes in the blue ice

Measured in-situ physical and chemical parameters within the cryoconite holes

Collected water, ice and sediment samples of various cryoconite holes
