

HOSST-TOSST Summer Schools: RULE of 3's

- Key areas of the North Atlantic
- Diverse backgrounds
Diverse knowledge
Diverse working groups
- Three different main subjects and goals

We are **STEWARDS** of the **OCEAN**

HALIFAX SUMMER SCHOOL 2016 **Ocean Technologies and Observations**

Ocean sustainability as the backbone of businesses/industry/innovation

CULMINATING ACTIVITY: Present a viable business proposal on anything to do with the ocean.

Get swallowed whole in the Dragon's Den?

It is a big **ocean of business** out there!

KIEL SUMMER SCHOOL 2017

“Multi-use Conflicts in an Industrialized Coastal Zone”

Marine Protected Areas through the eyes of stakeholders

CULMINATING ACTIVITY

Save my area!

Reconciling conflicting needs for the sustainable use and protection of coastal areas

more **conversation** for
more **protection** please!

CABO VERDE SUMMER SCHOOL 2018

Seafloor structures and life on Cape Verde

Culmination of the HOSST-TOSST advocacy

**Ocean Science
for the people!**

From **SCIENCE**...

- Cabo Verde as a study site = field work
- Learning from locals: lectures, site visits, demonstrations
- Topics based on **public interest**

...To **OUTREACH**

- Working with locals: Cabo Verde student participants
- Presentations and Posters given to the Cabo Verdeans

Our science for YOU! Real-life, real methods in practice, real applications.

Check out our work! <https://www.caboverde-volcano.org/>
