

Large-scale features and evaluation of the PMIP4-CMIP6 *midHolocene* simulations

Chris Brierley (UCL) & the PMIP community

[Click to watch the presentation on YouTube](#)

This work presents an initial analysis of the new ensemble of mid-Holocene simulations performed for PMIP4-CMIP6.

As well as watching our talk, you can find even more information by:

- Looking at the paper submitted to *Climate of the Past* - [doi:10.5194/cp-2019-168](https://doi.org/10.5194/cp-2019-168)
- Downloading the contributed model output from the [Earth System Grid Federation](#)
- Exploring and downloading the post-processed data from our webpage - past2future.org
- Emailing [Chris](#) with questions or requests for regridded and/or ensemble average fields
