

SCIDATAMOVER

“MOVING GEOCHEMISTRY DATA FROM LAB THROUGH TO PUBLICATION”

Why:

- Stop the “Sneaker Net” & data loss
- Timely collaboration across the Geochem research sector

What: Services to -

- Capture Data & Metadata at collection
- Enable ability to reliably transfer data from instruments to researchers
- Seamlessly transfer data from “Domains”
- Support Collaboration on geochemistry research
- Support Ability to Publish Science data

How:

- Leverage Standards
- KISS
- Existing Tools
