

Divergent responses of permafrost peatlands to recent climate change

Thomas G. Sim*, Graeme T. Swindles, Paul J. Morris, Andy J. Baird, Claire L. Cooper, Angela V. Gallego-Sala, Dan J. Charman, Thomas P. Roland, Werner Borken, Donal J. Mullan, Marco A. Aquino-López & Mariusz Gałka

Key findings

- Divergent ecohydrological response
- Linked to local and autogenic factors
- These complex dynamics need to be considered in predicting future trajectories
