

The MINETRAIN Project:

Lifelong learning opportunities for mining industry related professionals in real-life underground mining conditions;
Dealing with the aftermath of two innovative pilot courses

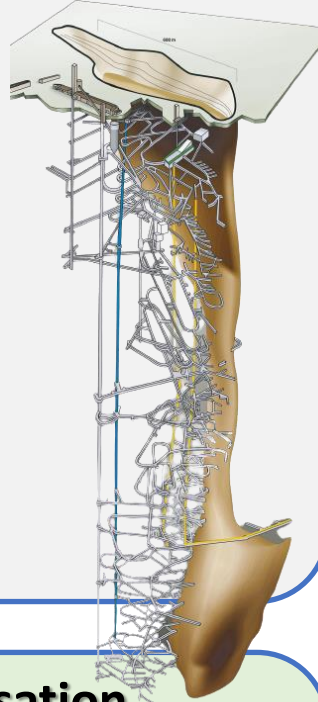

- Holistic view of the mine value chain
- Gaining valuable practical experience

The Pyhäsalmi Mine in Finland

Mining since 1962
Copper-zinc-pyrite
Deepest mine in EU
Pioneering technologies
Ongoing research activities
Seizing operations (2021)

Pilot Courses Onsite & Online

August 2019

December 2020

Aftermath-Commercialisation

I fully disagree

1 2 3 4 5 I fully agree

The online and onsite courses were well linked.

After completing the course, I have a better understanding of the interaction between different areas of the mine value chain.

The training week was well organized.

The training week responded to my expectations.
