

Citizens Climate Lobby

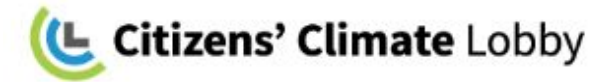

Educating citizens to
advocate for an effective
climate solution

By Sidonie Ruban

April 26, 2021

A global organisation of citizens

Global Organisation

- 600+ groups
- 60+ countries
- 1 economic policy

Active at MS and
and EU level

Advocating for a simple solution to drive the change we need

Carbon pricing

An international economic and scientific consensus makes cleaner decisions

Climate Income

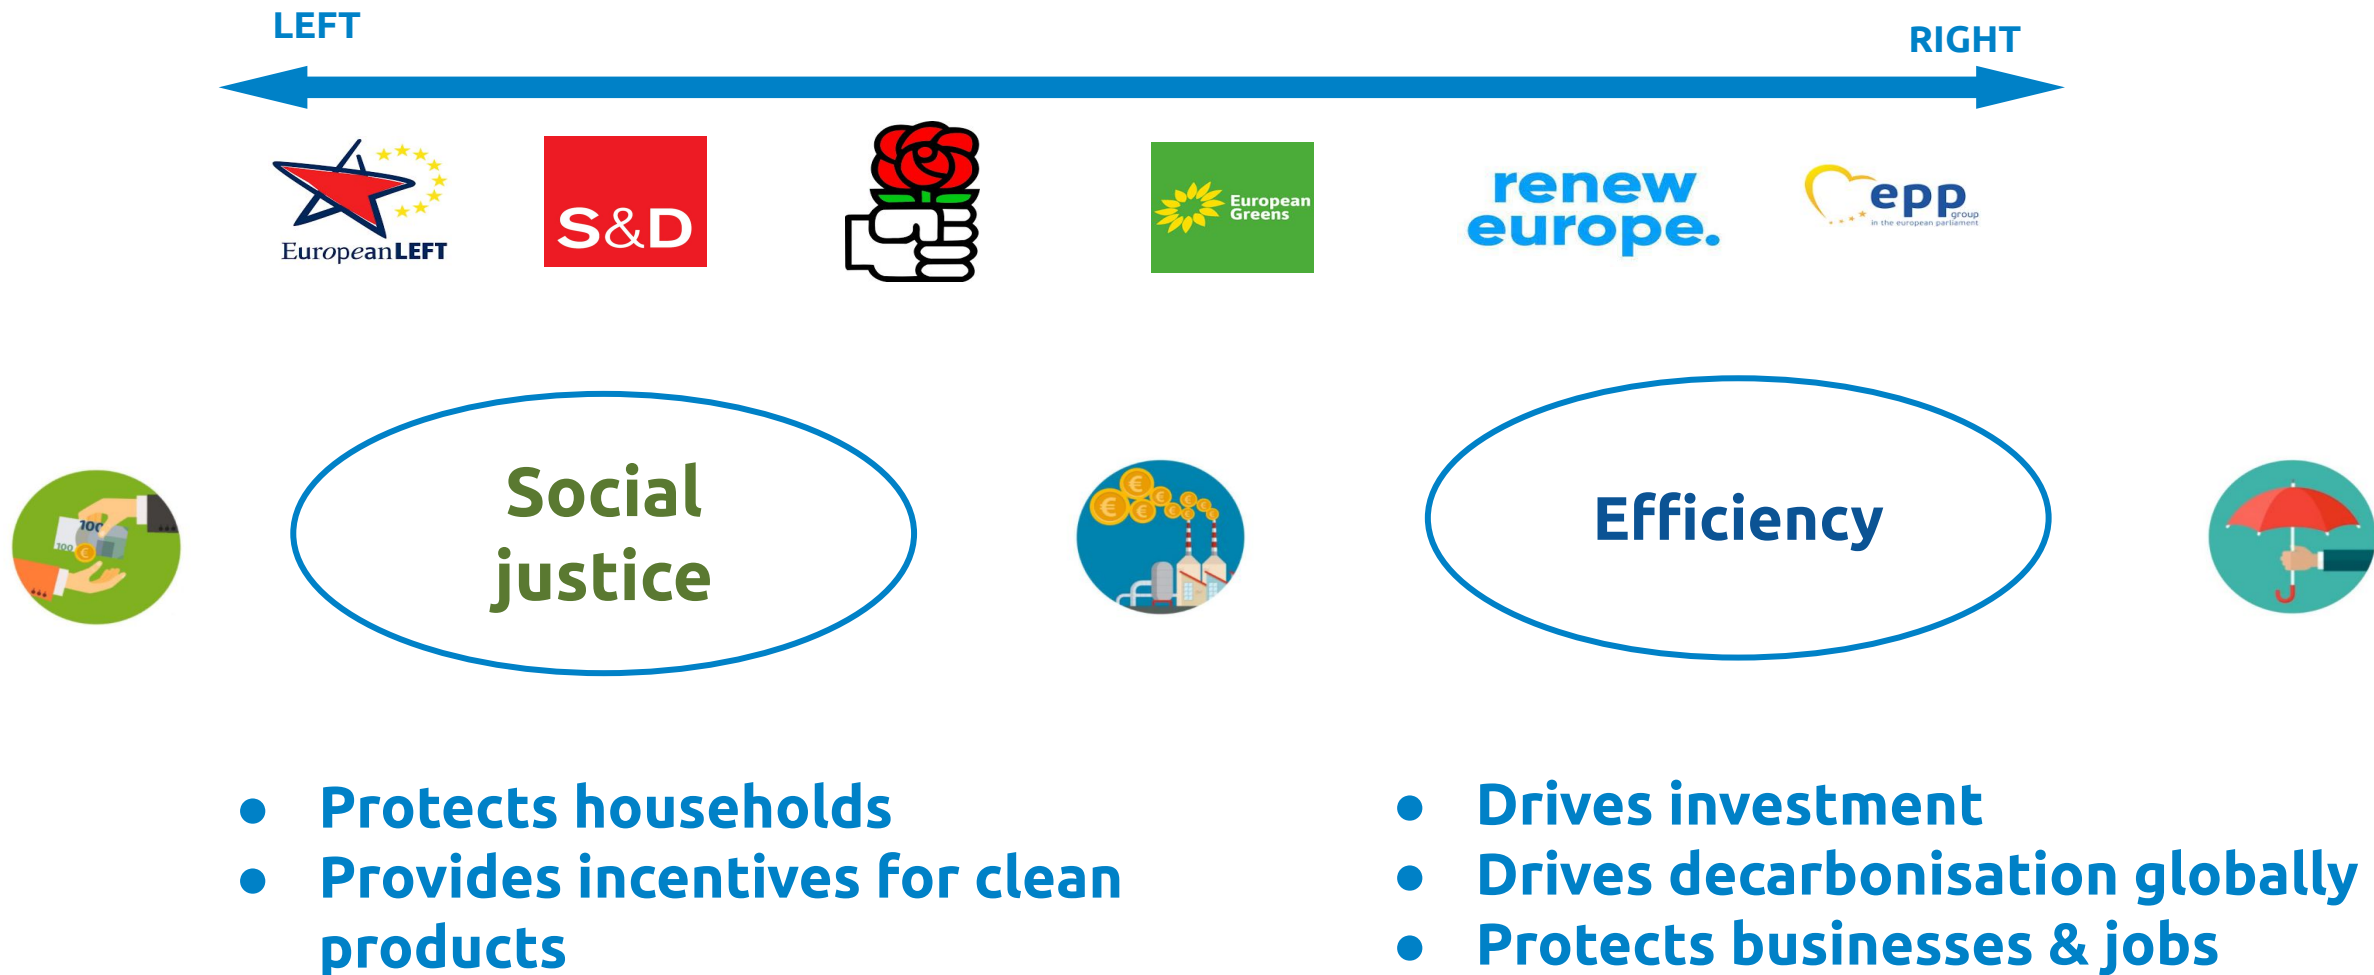

Returns money to people, so that families do not suffer price increase

Carbon Border Adjustment

Protects jobs and industry from loopholes or carbon leaks, and persuades other countries to do the same

Building consensus across the political spectrum

Building trust & long-term relationships

Training volunteers

- Focus on **solutions, science & evidence**
- Say what we are **for** (not what we are against)
- Build on what we have **in common**
- Use the **AROSE** method

Affirm the other person's goodness, strengths, abilities, values, efforts,

Reflect back to show accurate empathy by Listening carefully

Open-ended Qs that start with how, when, what, where, which, why

Summarises at the end of a meeting

Elicit the permission to share: Show humility

Thank you
