information

*"I really enjoyed the entire process from start to finish. It taught me the importance of communicating science without the jargon and made me realise how important communicating science to our peers and the public is."*

student feedback

*"Informative and straight to the point. I'd definitely use it and add to my lesson plans."*

*"Interesting and informative video! It's rare and really great to find such a topic explained in a simple yet clear and straightforward way! thank you."*
