

tektonika

Breaking barriers in scientific publishing, one manuscript at a time

L. Perez-Diaz, R. Lacassin, C. Magee, M. Gouiza, and the Tektonika community*

OPEN SCIENCE

VOLCANICA

TEKTONIKA

SEISMICA

Sedimentologika

Tektonika is a community-led Diamond Open Access journal publishing research in structural geology and tectonics.

Peer-reviewed, free for authors, free for readers.

We don't want your money - free for authors
We don't hide your science - free for readers
We don't own your science - copyright remains with authors

VOLCANICA

TEKTONIKA

SEISMICA

Sedimentologika

We launched Tektonika at EGU22... and a lot has happened since!

Tektonika is a **grass-roots community-driven initiative** that relies on the involvement of Earth Scientists from around the globe; together representing the **wide and diverse spectrum** of the structural geology and tectonics community.
