

# Enhancing the Representation of Wastewater Network Maps Using Graphs

Ikram EL MIQDADI <sup>1</sup>, Fatima ABOUZID <sup>1</sup>,  
Salem Benferhat <sup>2</sup>, Nanée Chahinian <sup>3</sup>, Carole Delenne <sup>4</sup>

<sup>1</sup> University of Sidi Mohamed Ben Abdellah, Fez, Morocco

<sup>2</sup> Artois University, CNRS, UMR 8188

<sup>3</sup> IRD, CNRS, Univ Montpellier

<sup>4</sup> IUSTI, CNRS, Aix Marseille University, Inria, team Lemon, France

**Input:** Image maps with information about wastewater network

**Detecting network components**

OCR,  
Template matching,  
Hough,  
etc.

**Associating network components**

Association  
algorithms,  
RegEx,  
Isolated nodes

**Output:** Graph representing wastewater network
